strategic insights

Methodology

2

Field Window	Fielded October 16 to 24, 2026.
Sampling	Pollara conducted a hybrid online and telephone survey of n=1,596 Toronto residents aged 18 and older who are eligible to vote (998 online panel, 598 live telephone). Results are based on the n=1,505 likely voters who have already voted or say they are certain or likely to vote.
Weighting	To reflect the voting electorate, data is weighted by region, gender and age based on historical turnout rates.
Reliability	Online surveys cannot be assigned a margin of error; a probability sample of 1,505 would be accurate to $\pm 2.5\%$, 19 times out of 20. Vote results include advance poll voters, who were asked how they voted.
Sponsor	This research was commissioned by CUPE Local 416 (Toronto Civic Employees' Union).

REGION*	SAMPLE SIZE (Unweighted)	MARGIN OF ERROR*
Downtown	711	$\pm 3.7\%$
North York	348	$\pm 5.3\%$
Etobicoke York	249	$\pm 6.2\%$
Scarborough	197	$\pm 7.0\%$
TOTAL	1,505	$\pm 2.5\%$

Chow 48%, Bradford 40%, with 10% still undecided

3

- Among likely voters, including those who have already voted, 48% support Chow and 40% support Bradford. 10% are undecided.

Mayoral Vote Intention, Likely Voters (n=1,505)

10%

of likely voters are still
undecided

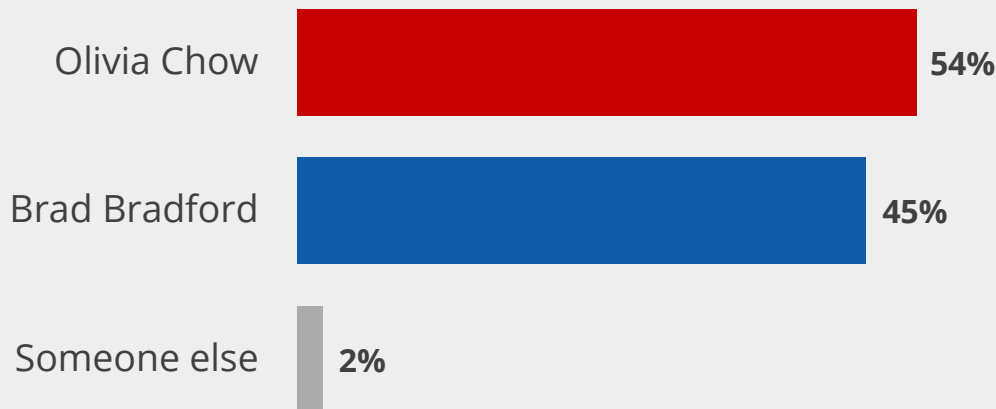

Base: Likely voters, October 16 to 24, 2026 (n=1,505). Those who had already voted at the advance polls (30%) were asked who they voted for. If the City of Toronto mayoral election were held today with the following candidates, who would you vote for or lean towards?

Among decided likely voters, Chow leads Bradford 54% to 45%

4

- Excluding undecided voters, Chow leads by 9 points. This includes those who have already voted at the advance polls.

Mayoral Vote Intention, Decided Likely Voters (n=1,371)

+9

Chow's lead among decided likely voters (54% to 45%)

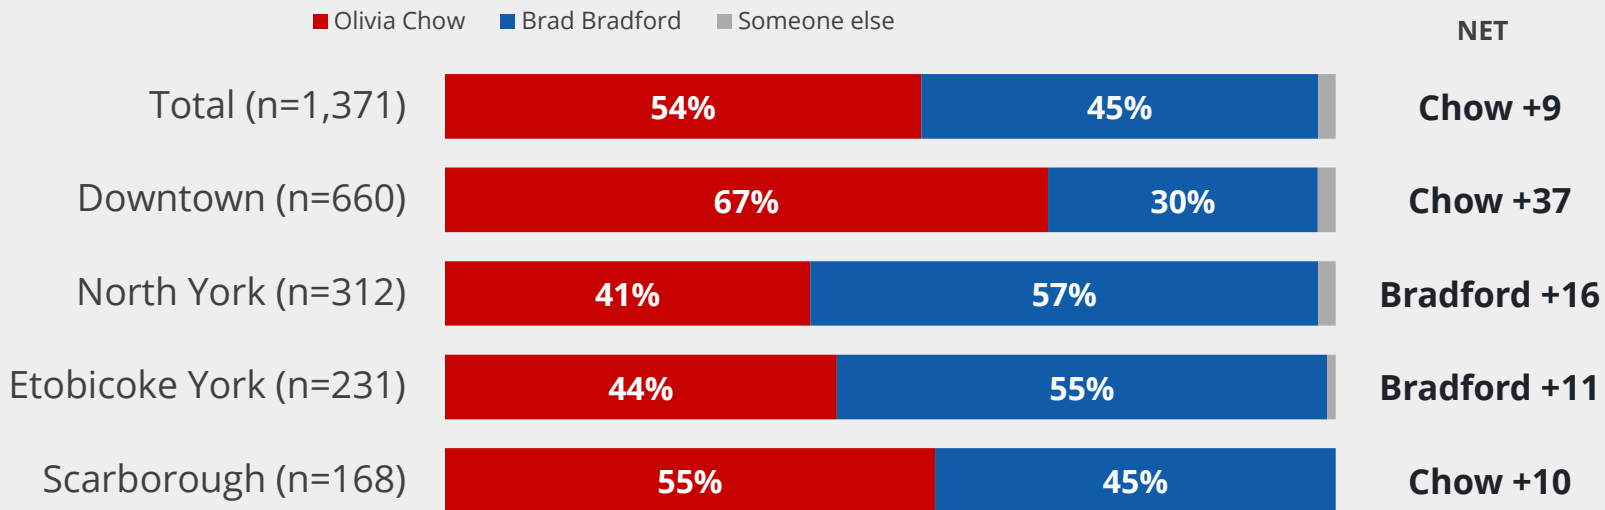

Base: Decided likely voters, October 16 to 24, 2026 (n=1,371), including those who have already voted; undecided and would not vote excluded. If the City of Toronto mayoral election were held today with the following candidates, who would you vote for or lean towards?

By region: Chow leads Downtown and Scarborough, Bradford leads North York and Etobicoke York

5

- Chow leads Downtown 67% to 30% and Scarborough 55% to 45%. Bradford leads in North York (57% to 41%) and Etobicoke York (55% to 44%). Regional samples are smaller, so read these as direction.

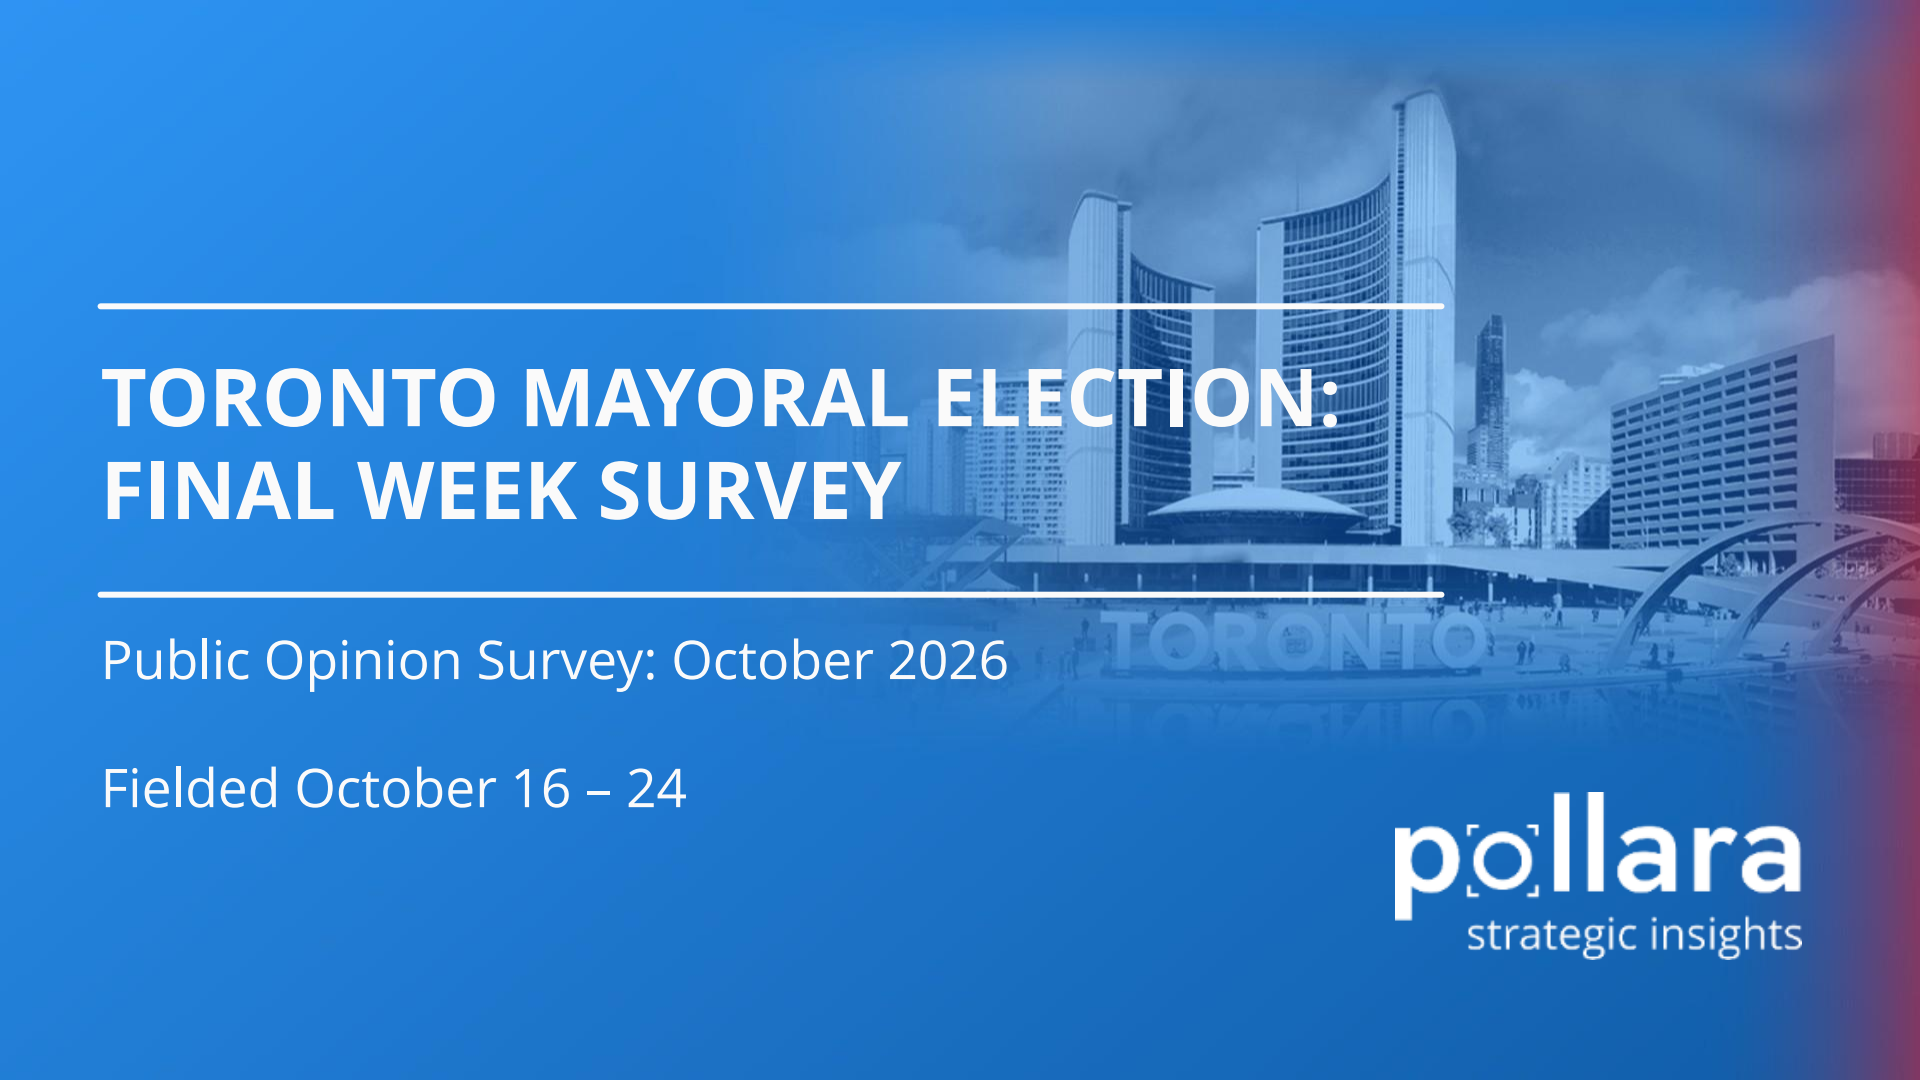

Mayoral Vote Intention Among Decided Likely Voters, by Region

Base: Decided likely voters, October 16 to 24, 2026 (n=1,371), including those who have already voted; n shown is unweighted. Someone else (not labelled): Total 2%, Downtown 2%, North York 2%, Etobicoke York 1%, Scarborough 0%. *Regions are the City of Toronto's four community council areas; Downtown is Toronto and East York.

If the City of Toronto mayoral election were held today with the following candidates, who would you vote for or lean towards?
